TWENTY-SECOND ANNUAL MEETING

OF

CONTRIBUTORS.

At a meeting of the Contributors to the Hospital of the Protestant Episcopal Church in Philadelphia, held Tuesday, January 6th, 1874, pursuant to the Charter, at the Office, 708 Walnut street, George Washington Smith, Esq., was called to the Chair, and the Rev. John A. Childs was appointed Secretary.

The Report of the Board of Managers, together with the Annual Statements and Accounts, were then presented, when,

On motion, it was

Resolved, That the Report and accompanying documents be referred to the Board of Managers for publication at their discretion.

The following gentlemen, having been nominated, were unanimously elected members of the Board, to serve for the ensuing three years, viz. :

REV. HENRY J. MORTON, D.D.,

" DANIEL S. MILLER, D.D.,

CASPAR MORRIS, M.D.,

GEORGE M. STROUD.

GEORGE BLIGHT,

WILLIAM R. LEJEE,

ANDREW H. MILLER,

JOHN E. COPE.

On motion, it was

Resolved, That the Contributors have heard with pleasure that the Board of Managers have so promptly complied with their request, made at the last Annual Meeting, and have commenced the erection of the East Wing of the Hospital. The Contributors would warmly commend this undertaking to the friends of the Institution, and solicit their aid and hearty co-operation.

On motion, adjourned.

GEO. WASHINGTON SMITH,

President.

JOHN A. CHILDS, *Secretary.*

TWENTY-SECOND ANNUAL REPORT
OF
THE BOARD OF MANAGERS.

DECEMBER 26, 1873.

TO THE CONTRIBUTORS:

The Board of Managers respectfully submit their Twenty-second Annual Report. The Father of Mercies has caused the work to prosper in their hands, and to Him they would give the praise for all the gifts received, and all the good which may have been accomplished.

From the statistics appended, it will appear that the number of patients admitted during the year has been 1033, of whom 796 were males, and 237 were females; 554 of these were admitted to the surgical wards, and 474 to the medical. Adding to these the number remaining in the Hospital at the beginning of the year, we have a total of 1137 under treatment in the wards during the year. Of these there were discharged 611 cured, 279 improved, 49 unimproved, while 85 have died; leaving 113 in the wards at the present time.

The daily average number of patients in the house has been 117½.

The average duration of treatment, or number of days in the house has been $39\frac{1}{2}$ days. This average is about the same as last year.

In addition to the patients under treatment in the house, 7526 patients have been treated in the Dispensary, of whom 5053 were medical, and 2473 surgical cases, being a daily average of 53 new cases.

The expense of maintaining each patient in the house has been about the same as last year, viz. : something over one dollar per day.

A larger number of free patients (742) have been admitted this year than during any other year in the history of the Hospital. The daily average has also been 96.

At the last Annual Meeting of Contributors, the Managers were requested "to take measures at the earliest period practicable for the erection of the east wing." They are now able to report that the matter was taken up by the Board at their meeting held January 9th, 1873, and immediately referred to a Building Committee, "to report probable cost and means of providing for it." In the month of August they confirmed an agreement with William Armstrong for the construction of the building, at a cost of \$111,500. On the 27th of the same month, ground was broken, and at this date the foundation walls of the entire building are finished, and the southern portions considerably above ground. Work has been suspended for the winter months, but will be resumed when the spring

opens, and carried forward as rapidly as possible. The sum of \$61,000 has been subscribed, but for the completion of the building, including the arrangements for heating, water-supply, gas, and furniture, \$80,000 additional will be required.

This account has always been kept private, the contributors alone being apprized of their associates when the buildings are completed, and a final audit of the receipts and expenditures has been made.

These facts prove, not only how much has been done, but also how much need there is of increased activity and liberality among the friends of the Institution. The wards are crowded, while the necessities of a rapidly increasing population, made more stringent this year by the financial troubles, claim our immediate attention. In order to secure the enlarged accommodations, and provide for the support of additional patients, the Managers must continue to ask that all the Churches of the Diocese will appreciate these growing demands, and respond to them generously.

The Thanksgiving collections reached this year the sum of \$15,440.06. This amount includes a contribution of \$5,000 from a member of Christ Church, for the endowment of a free bed. The number of free beds supported by annual subscriptions is steadily increasing.

A contribution of \$2,000 has been received from Miss Mary D. Brown; another of \$500 from Mrs. Charles McEwen; another from S. P. N., of \$500;

and another of \$300 from the Ladies' Missionary Society of Christ Church, for Permanent Fund.

Mr. Isaiah V. Williamson has contributed during the year the sum of \$35,000.

The following legacies have been paid :

\$4,750 from the Estate of Edward Roberts.

5,000 " " S. B. Bancroft.

500 " " Ann F. Wheeler.

The investment account has been increased to the amount of \$3,298.75. This is in addition to the gift of Mr. Williamson.

The mortgage for \$11,200 on lot on Lehigh avenue has been paid off, and there have been paid for street improvements, \$4,596.04.

Several new provisions have been made for the safety and convenience of the inmates of the Hospital. A telegraphic instrument has been placed in the Superintendent's office, which communicates directly with the Central Telegraph office at Fifth and Chestnut streets. It has been in use for some months, and is found to be very serviceable in matters requiring quick action. In case of fire, it would manifestly be of the greatest importance. The Hospital is at no expense either for the instrument or connection, as it was ordered by action of City Councils.

To guard against damage by fire, over 900 feet of one-and-one-half inch rubber has been procured and placed near the fire-plugs on each floor of the building. A change has also been made in the water supply

pipes, by which the pumping engine can be cut off from the tanks and instantly connected with the plugs in case of necessity, affording an abundant supply of water.

During the past winter it was found impossible to keep the three small side wards on each story at the proper degree of warmth. Stoves have been provided for these apartments, and they are now perfectly comfortable, and also well ventilated.

Mention was made in the last Report of the proposed paving of Lehigh avenue, which is situated on the north side of the Hospital property. That work is now completed and paid for, but the side-walk still remains to be paved. This will involve an expenditure of about \$2,000. Since the paving of the avenue, a double line of track has been laid upon it by the Fifth and Sixth street Passenger R. R. Co., which will afford a convenient means of communication with the lower part of the city.

Through the kindness of one of the Managers, a large number of colored pictures, neatly framed and of pleasing character, have been presented to the Hospital, and placed on the walls of the men's medical ward. They add much to the appearance of the room, and will doubtless help to cheer and comfort many a sufferer.

It is the desire of many ladies interested in the Hospital, that a library of miscellaneous books should be formed for the use of the inmates. Some additions

have been made to the small number collected many years ago, but more books are very much needed to fill the shelves, and relieve the tedious hours of the convalescent patient.

The Managers are not unmindful of their obligations to the kind friends who have so thoughtfully provided various delicacies and other useful articles for the patients during the year. Their gifts will be found specially acknowledged in the Superintendent's Report.*

The following changes have taken place in the medical staff; Dr. Wharton Sinkler has been elected Attending Physician in place of Dr. Slocum, declined; Dr. Lawrence B. Hoff has been re-elected Resident Physician, to fill the unexpired term of Dr. Starr, resigned. Dr. J. Williamson Jr., Dr. H. B. Reed, and Dr. J. M. Steele have been elected Resident Physicians.

It only remains for the Managers to commend once more their useful and Christian work to the consideration of the charitable. Facts and figures do not always tell the whole truth. It would be impossible to estimate the amount of pain and distress which has been averted, the relief which has been afforded to mind as well as body, the influences for good which have been set in motion, and the silent power of kind words, a Christian

* For the information of those desiring to assist in this way, we may state that the articles required are those that would be gratefully received in any sick-room. Fruits of all kinds, in their season, especially grapes, oranges, lemons, and bananas; preserves and currant jelly; and, in the winter, canned fruits and vegetables of every kind. Bundles of old linen are also much needed. The Hospital wagon will call for such articles on any Wednesday morning specified, it a notice to that effect is sent to the Superintendent at the Hospital.

atmosphere, and unselfish administrations. The Divine Master who has taught us that care for the sick is care for Him, gathers up the real results, and notes them in His book of remembrance. The enlargement of our building will afford new opportunities for those who would be "good stewards of the manifold grace of God," to endow beds, and so increase our Permanent Fund, and make room for the sick who are laid at our doors. We enter upon the New Year with the earnest hope and prayer that the charity which has hitherto sustained our work may not only flow more abundantly, but fresh springs of generous love pour in their contributions, and swell to the measure of our needs the tide of blessing.

STATISTICAL REPORT FOR 1873.

—:0:—

SUMMARY.

During the year, ten hundred and thirty-three (1033) patients have been admitted. At the date of last report, one hundred and four (104) patients were in the Hospital, making a total number treated during the year one thousand one hundred and thirty-seven (1137). Of these, ten hundred and twenty-four (1024) were discharged; of whom 611 were cured, 279 improved, 49 unimproved, and 85 died; leaving 113, or seventy-one men, thirty-seven women, and five children, in the wards at end of year.

There have been seven thousand five hundred and twenty-six (7526) Dispensary patients prescribed for during the year; of this number, five thousand and fifty-three (5053) were Medical, and two thousand four hundred and seventy-three (2473) were Surgical cases.

Average daily number of free patients in the Hospital, 96.

“ “ pay “ “ “ 21½.

“ “ patients in the Hospital, 117½.

“ duration of treatment or stay in the Hospital, 39½ days.

“ daily number of patients attending Dispensary, 53.

“ “ “ prescriptions in Dispensary, 37.

No. of prescriptions given during the year in Dispensary, 11,631.

Cost of each patient, including medicines to Dispensary, \$41.17.

Daily cost of maintaining Hospital, including medicines to Dispensary, \$128 49.
